

# Spreading Excellence 2020-21

Workshop Programme

# Spreading Excellence 2020-21

## Background

LimeCulture CIC has been funded by the Home Office to deliver the Spreading Excellence Programme for 2020-21.

The original Spreading Excellence project was created with the aim of improving the capacity and capability of the sexual violence sector to ensure high-quality and effective services were available for all.

The project sought to achieve this through the influence and engagement of service users, service providers, commissioners and policy leads working together collaboratively. In 2019 we published guidance for organisations on working with commissioners.

This year we have been asked by the Home Office to focus will be on support services for children and young people who have experienced child sexual abuse (CSA), to align with the Government Strategy (publication due early 2021).

## National Working Group

Re-established for the current programme, our National Working Group membership is drawn from a range of professionals working in child sexual abuse (CSA). This includes policy leads academics, service providers and commissioners. The group will provide oversight of the project and support it's delivery.

## Workshops

The Spreading Excellence National Working Group has supported development of a series of five virtual workshops. The intention is to bring around 25 stakeholders to each workshop.

The workshops will examine the main themes of commissioning and delivering services for children and young people who have experienced child sexual abuse (CSA).

We have arranged for expert speakers to share their experiences of either providing, commissioning or researching CSA. Additionally LimeCulture will be working with service providers to ensure that the voice of lived experienced is reflected during the workshops.

The purpose of each workshop is for participants to work collaboratively to identify the main challenges within these key areas, and to identify solutions and/or best practice.

## Who should attend?

Providers of CSA support services; practitioners or managers (CHISVA, Children and Young People Counselling Services and Social Care Safeguarding Leads), Commissioners of CSA services and Researchers in Practice.

## Report and Symposium

LimeCulture will review the findings from the five workshops and these will be published via a national symposium on the 30th of March 2021.

## Booking

These free workshops will be delivered virtually via Zoom and can be booked online at - <https://limeculture.co.uk/research/>
